PM Press. PAPERBACK. Book Condition: New. 160486057X Five years after his death in 1972, Paul Goodman was characterized by anarchist historian George Woodcock as "the only truly seminal libertarian thinker in our generation." In this new PM Press initiative, Goodman's literary executor Taylor Stoehr has gathered together nine core texts from his anarchist legacy to future generations. Here will be found the "utopian essays and practical proposals" that inspired the dissident youth of the Sixties, influencing movement theory and practice so profoundly that they have become underlying assumptions of today's radicalism. Goodman's analyses of citizenship and civil disobedience, decentralism and the organized system, show him Drawing the Line Once Again, mindful of the long anarchist tradition, and especially of the Jeffersonian democracy that resonated strongly in his own political thought. This is a deeply American book, a potent antidote to US global imperialism and domestic anomie.
