By Mrs Geo W Houk

Forgotten Books, United States, 2016. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from A Paper Presenting Facts and Suggestions in Proof of the Theory of the Gradual and Continuous Diminution of the Quantity of Water Upon the Earth: And Its Permanent Conversion Into Solid Forms of Matter; Prepared, to Be Presented Before the American Association for the Advancement of Science, at Its Meeting in Portland, Maine, in August, 1873 The evidences of the apparent subsidence of the water level upon the earth's surface, have been familiar to scientific observers for many centuries; and various theories have been advanced, from time to time, to account for it. Aristotle, Zanthus, Omar in the 10th Century, Leibnitz, Calcius, Vallisneri, Linnaeus, Buffon and Gessner are among those who have noted the diminished extent of water surface upon the earth. Linnaeus and some others accepted the theory of Leibnitz, that the Universal Ocean was received into caverns which opened in the earth's crust. There seems to have been no expression of similar views during the past century. Humboldt says: We must not overlook the possibility of a diminution of the quantity...

Reviews

I actually started looking over this publication. It really is rally interesting throgh studying period. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- Dana Hintz

Good electronic book and valuable one. It really is basic but unexpected situations in the 50 percent in the pdf. You wont really feel monotony at at any moment of your time (that's what catalogues are for concerning when you ask me).
