More Information | Ask Bookseller Publishers Weekly - Publishers Weekly Kevin McCloud, believed dead for 18 years, resurfaces in fantastic fashion in McKenna's latest red-hot McCloud sizzler (Edge of Midnight; etc.). After recovering from an injury suffered while trying to prevent a drowning, Kev, now 40-ish, begins remembering what happened leading up to the traumatic events that left him an amnesiac and is lured back into the dark web cast by the evil scientists intent on completing the now-dead psycho scientist Christopher Osterman's devious mind-control invention. When Kev meets graphic novelist Edie Parrish at a book signing, they forge a connection that's deeper than romantic; as it turns out, Edie has psychic powers, a history with Osterman, and believes Kev may have inspired the hero of her graphic novel. McKenna's steamy style, sci-fi twists, and possible family reunion makes this the best McCloud update yet, but readers who aren't already well versed in the series will want to start with the earlier volumes. (June).
