This widely popular resource balances the theory-based why and the practical how of using technology to support and shape the future of technology in education. In it, readers see how technology integration strategies link to specific learning theories and how teachers can plan for technology integration, complete with opportunities to practice integrating technology by designing curriculum to meet teaching and learning needs. Integrating Educational Technology into Teaching s comprehensive technology integration framework The Technology Integration Planning Model (TIP Model) is built on a balance of research and proven classroom practices and shows teachers how to create an environment in which technology can effectively enhance learning. Carefully-selected examples and exercises in each chapter encourage teachers to reflect on their practice as they develop the...
