Brand New Book ***** Print on Demand *****.Excerpt from The Opium Monopoly We first became interested in the opium traffic during a visit to the Far East in 1916. Like most Americans, we had vaguely heard of this trade, and had still vaguer recollections of a war between Great Britain and China, which took place about seventy-five years ago, known as the Opium War. From time to time we had heard of the opium trade as still flourishing in China, and then later came reports and assurances that it was all over, accompanied by newspaper pictures of bonfires of opium and opium pipes. Except for these occasional and incidental memories, we had neither knowledge of, nor interest in the subject. On our way out to Japan, in the July of 1916, we met a young Hindu on the boat, who was outspoken and indignant over the British policy of establishing the opium trade in India, as one of the departments of the Indian Government. Of all phases of British rule in India, it was this policy which excited him most, and which caused him most ardently to wish that India had some form of self-government, some voice in the control and management of her own affairs, so that the country could protect itself from this evil.
